## Modular Solutions for Clothing Racks & Retail Shop Fitouts

**Retailers** are constantly looking for a competitive edge when displaying merchandise and it is vital to keep up to date and fresh looking. **Kazed Industrial Solutions** can supply simple pipe fittings to build modular clothing racks and display stands to give you the jump on your competitors.

Kazed modular systems incorporate slip-on pipe fittings from the leading manufacturers around the world with all components made to **ISO 9002 standards**. All fittings are designed to reduce the difficulty of installations and are structurally rated for your peace of mind—Strong structures are **safe structures**.

Our broad range of components allows for a variety of options, giving you complete flexibility. Fittings are available in galvanised steel or Aluminium and can be powder coated to suit your theme.

Keeping a fresh look in your shop is a major objective in the retail sector and the modular system provides you with **flexibility and savings** to improve your bottom line.

The modular concept is used extensively throughout industry to build racks, displays, handrails, safety barriers, stair rails and many other modular pipe structures. No welding, no grinding, no threading, **no hot work certificates** and no need for expensive contractors on site.

Installation requires only simple hand tools, delivering up to **50% savings** in time and labour compared to old style alternative racks. **Simplicity** is the key, secure connection is achieved by hand tightening a hex allen key—The ultimate ‘Do it yourself’ solution!

### Modular System Components

- **Modular concept to suit all onsite applications**
- **Make alterations quickly and effectively**
- **Cost effective: save up to 50% on installation**
- **Easy to adjust on site to allow for quick changes**
- **Can be powder coated to most RAL colours**
- **Reusable system reduces your carbon footprint**
