Providing Global Solutions Locally

Modular Safety Handrails & Barrier Solutions

- **SAVE UP TO 50% ON INSTALLATION COSTS**
- **NO HOT WORK PERMIT REQUIRED**
- **COST EFFECTIVE ALTERNATIVE TO WELDED HANDRAILS**
- **INDEPENDENTLY TESTED TO AS1657**
- **REDUCED MAINTENANCE COSTS**
- **DESIGN & CONSTRUCT**
- **REUSABLE FITTINGS MAKE ALTERATIONS SIMPLE**

Modular Safety Handrail & Barrier Solutions

Industry demands strong, safe structures to ensure compliance to OH&S standards. **Kazed Industrial Solutions**, a leading distributor of modular components for handrails, safety barriers and railings, offer safe systems for separating people from ever present hazards. **Safety** is paramount to protecting your most valuable asset - your people. **Working safe** is working smart and our modular solutions are more cost effective than old style welded handrails.

Kazed modular systems have been approved by many different industry sectors, from Mining, Construction, Transport & Water Authorities to name a few. Kazed handrail systems incorporate slip-on pipe fittings from leading manufacturers around the world with all components made to **ISO 9002 standards**. All fittings are designed to reduce the cost of installing safety barriers in hazardous locations whilst maintaining safety compliance.

Our broad range of components allows for a variety of engineered solutions. Fittings are hot dipped galvanised for corrosion resistance and are a proven solution having been used extensively throughout industry for many decades to build handrails, safety barriers, stair rails and many other modular pipe structures.

The Kazed Modular System is the latest generation of handrail system available and can be found in many hazardous environments. Safeguarding your people is a requirement in all industries and the modular system provides you with peace of mind, flexibility *and* savings to your bottom line.

No welding, no grinding, no threading, **no hot work certificates** and **no need for expensive contractors** on site. Installation requires only simple hand tools, delivering up to **50% savings** in time and labour compared to old style welded rails. **Simplicity** is the key as secure connection is achieved easily by hand tightening a hex Allen key.

Modular System Components

- Cost effective: save up to 50% on installation
- Modular concept to suit all onsite applications
- No hot work permits required

- Easy to adjust on site to allow for measurement errors
- Available in Galvanised Steel or Aluminium
- No special skills required for installation
