*Providing Global Solutions Locally*

## Modular Handrail Solutions for the Water Industry

- **SAVE UP TO 50% ON INSTALLATION COSTS**
- **NO HOT WORK PERMIT REQUIRED**
- **COST EFFECTIVE ALTERNATIVE TO WELDED HANDRAILS**
- **INDEPENDENTLY TESTED TO AS1657**
- **REDUCED MAINTENANCE COSTS**
- **DESIGN & CONSTRUCT**
- **REUSABLE FITTINGS MAKE ALTERATIONS SIMPLE**

## Modular Handrail Solutions for the Water Industry

**Water Treatment plants** require corrosion resistant hand railing. **Kazed Industrial Solutions**, a leading distributor of modular components for handrails, safety barriers and railings, offer safe systems for separating people from hazards. **Safety** is paramount to protecting your most valuable asset - your people and these ever present hazards are most prevalent in the water supply & waste treatment industries.

**Working safe** is working smart and now with the use of our modular systems they are more cost effective than old style welded handrails.

Kazed modular systems have been approved by Water Authorities all over Australia and incorporate slip-on pipe fittings from the leading manufacturers around the world with all components made to **ISO 9002 standards**. All fittings are designed to reduce the difficulty of installing and repairing safety barriers in hazardous locations whilst maintaining safety compliance.

Our broad range of components allows for a variety of engineered solutions. Fittings are hot dipped galvanised for corrosion resistance and have been used extensively throughout industry for generations to build handrails, safety barriers, stair rails and many other modular safety railings.

**The Kazed Modular System** is the latest generation of handrail system available and can be found in many hazardous environments. Safeguarding your people is a requirement in all industries and the modular system provides you with peace of mind *and* savings to your bottom line.

No welding, no grinding, no threading, **no hot work certificates** and no need for expensive contractors on site. Installation requires only simple hand tools, delivering up to **50% savings** in time and labour compared to old style welded rails. **Simplicity** is the key, secure connection is achieved by hand tightening allen (hex) key.

### Modular System Components

- Modular concept to suit all onsite applications
- No hot work permits required
- Cost effective: save up to 50% on installation
- Easy to adjust on site to allow for measurement errors
- Available in Galvanised Steel or Aluminium
- Reusable
